To change your notification settings for a group, go to the group and click the Notifications button at the top right of the page. You can turn notifications on or off from the dropdown menu.

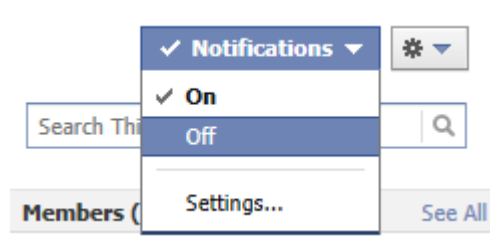

If you'd like to set more advanced notification settings, select Settings from this menu. You'll land on a screen that lets you specify what types of posts you want to be notified about and where you want to get notifications.

9. click the downward pointing triangle to the right of **All Activity**.

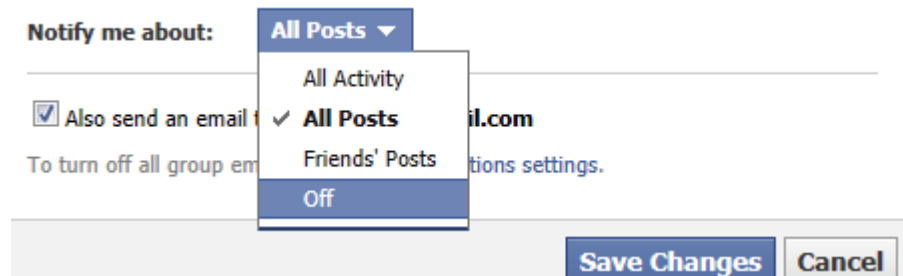

10. Check **On** or **Off** or select **Settings**

Guide to Facebook Notification Settings

11. Select your preference or select **Off** to stop e-mail notifications.

The screenshot shows the Facebook notification settings interface. The 'Notify me about:' dropdown menu is open, displaying the following options: 'All Posts' (selected), 'All Activity', 'Friends' Posts', and 'Off'. Below the dropdown, there is a checkbox labeled 'Also send an email to [email address]' which is checked. To the right of the checkbox, the text 'il.com' is visible. Below the checkbox, there is a line of text: 'To turn off all group email notifications, go to your notification settings.' At the bottom right of the settings panel, there are two buttons: 'Save Changes' and 'Cancel'.
